Projects

Adult Census Income Analysis — Python, Pandas, NumPy, Matplotlib, Seaborn

- Worked with **50,000+ census records** using Python and Pandas, applying data cleaning, categorical handling, filtering, grouping, and aggregation across demographic and employment attributes.
- Explored relationships between education, occupation, age, and work hours through data transformation and exploratory analysis to identify income and demographic trends.
- Used statistical summaries, correlation analysis, and **Matplotlib/Seaborn visualizations** to compare income groups and present demographic trends and analytical insights.

Data Job Market Analysis — Python, PostgreSQL, Power BI, Pandas, Matplotlib

- Analyzed **750,000+ job postings** using **Python (Pandas)** and **PostgreSQL** to uncover hiring trends, salary benchmarks, and in-demand skills across major data roles.
- Compared skill demand with salary data to identify high-demand and high-paying skills, providing insights into opportunities within the data analytics industry.
- Built an interactive **Power BI dashboard** featuring KPIs, salary benchmarks, skill popularity, and job market trends for a centralized view of the analysis.

Consumer Market Trends Analysis — Python, PostgreSQL, Power BI, Pandas

- Explored customer purchasing trends from **3,900+ retail transactions** to understand revenue drivers, demographic spending patterns, and factors related to customer retention.
- Used **Python** and **PostgreSQL** to examine subscription behavior, discount usage, customer loyalty, and product demand, turning transaction data into business insights.
- Created a dynamic **Power BI dashboard** with KPIs, customer segments, and sales trends to support insights related to marketing, inventory planning, and customer engagement.

Experience & Achievements

- Earned the **Data Analysis with Python** certification from freeCodeCamp, gaining proficiency in Python, NumPy, Pandas, Matplotlib, and Seaborn through projects including data cleaning, demographic analysis, medical data visualization, time-series analysis, and sea-level prediction.
- Earned the **Marketing Analysis** certification from NPTEL (IIT Kharagpur), developing skills in market research, consumer insights, and data-driven business decision making.
- Led a team to develop a **Capstone Group Management System** that streamlined group creation, auto-matched supervisor allocation, and implemented unique identification controls—significantly improving workflow efficiency for college administrators.

Skills

Languages: Python, SQL, C++, JavaScript

Databases: PostgreSQL, MySQL

Analytics & Visualization: Power BI, Excel, Pandas, NumPy, Matplotlib, Seaborn

Tools: Jupyter Notebook, VS Code, Git, GitHub, DataBricks

Education

Vellore Institute Of Technology

B.Tech, Computer Science & Engineering

CGPA: 8.45

Madhya Pradesh, India

May 2022 – July 2026

Lancers Army School, Surat

Class XII – CBSE

Percentage: 84.4%

Gujarat, India

Apr 2020 – Apr 2021

Lancers Army School, Surat

Class X – CBSE

Percentage: 94.4%

Gujarat, India

Apr 2018 – Apr 2019
